Professor Elizabeth W. Crandall  
Chairman, Faculty Senate  
Quinn Hall, Campus

Dear Elizabeth:

This is to put into the record that I am approving Bills 80, 82, and 83, and Resolution 81. Mr. McClure will arrange to have the contents of Resolution 81 put before the Board at its next meeting.

With regard to Resolution 84, we are proposing to the Board of Trustees an assignment of the salary adjustment funds in approximately the magnitude as recommended by the salary committee. There is one major change, which Dr. James will convey to you in due course, if it is approved by the Board.

I am in accord, as are my colleagues, with the second part of the Resolution. I would point out, however, that the salary adjustment is in no sense a cost-of-living adjustment. It is an attempt being made to bring our average salaries up to the average salaries for each rank among the North Atlantic state universities. I am hopeful that what we are accomplishing for next year will go a long way toward achieving that goal.

In view of the fact that (a) the Board of Trustees has contracted with a management consultant firm to study the whole question of faculty salaries, schedules, and fringe benefits; and, (b) that I am to be out of the country for the next month, I shall have to decline to respond to the Senate's request for a clarification of my own views on the matter of basic contract time.

Dr. James will act in my stead while I am away, and I have indicated to my colleagues that no important decisions are to be postponed because of my absence.

Keep the home fires burning; I'll see you in March.

Cordially,

Francis H. Horn  
President
